EuCNC 2015 is the 24th edition of a successful series of a technical conference in the field of telecommunications, sponsored by the European Commission. The conference focuses on communications systems and networks, reaching applications and services. It targets to bring together researchers from all over the world to present the latest research results in networks and communications and the new developments in this field, and it showcases the results of projects from successive European R&D programmes co-financed by the European Commission.

Proposals for Exhibitions are invited in the following Tracks (a full list of topics is available at the website):

- PHY - Physical Layer and Fundamentals
- WIN - Wireless Networks
- OPN - Optical Networks
- NET - Networking
- APS - Applications and Services
- TER - Testbeds & Experimental Research

Exhibitions may address one or more Tracks, but they should be organised under a unified theme.

Exhibitions are expected to show the demonstration of novel technologies and their application.

Detailed information on the space and technical conditions for exhibitors is available at the website.

Exhibitions are supposed to have at least one person present at least during lunch and coffee breaks, in order to present the demonstration to attendees. A conference registration (without conference dinner) for this person is included in the fee paid for the exhibition stand.

The Exhibition will be open during the entire conference, from 30 June to 2 July 2015

Exhibitions proposals should be submitted via a specific template, available at the website. Proposers should provide information on the Title, Objective, Motivation and Background, Description, and associated Requirements.

Proposals should be submitted to eucnc2015@c2b-congress.com.
