EuCNC 2019 is the 28th edition of a successful series of a conference in the field of telecommunications, sponsored by the European Commission. The conference focuses on various aspects of 5G communications systems and networks, including cloud and virtualisation solutions, management technologies, and vertical application areas. It targets to bring together researchers from all over the world to present the latest research results, and it is one of the main venues for demonstrating the results of research projects, especially from successive European R&D programmes co-financed by the European Commission. This year's event also encourages insights from industrial deployments and experiences in the OPE track.

EuCNC 2019 will be co-located with the Global 5G Event, which brings together the world 5G industrial associations: 5G-IA, IMT-2020, 5G-Forum, 5G-MF, 5G-Brasil and 5G-Americas.

Tutorials proposals are invited in all Tracks (a full list of topics is available at the website):

- PHY - Physical Layer and Fundamentals
- RAS - Radio Access and Softwarisation
- NET - Network Softwarisation
- WOS - Wireless, Optical and Satellite Networks
- VAP - Vertical Applications and Internet of Things
- OPE - Operational & Experimental Insights

Tutorials may address one or more Tracks, but they should be organised under a unified theme.

Tutorials are intended to target an audience that is a mixture of industry and academic attendees.

Tutorials lecturers are requested to send the presentations until 4 weeks prior to the conference, so that they can be distributed to participants.

Tutorials may extend for either a full- or a half-day, and they will be held in the day previous to conference start, i.e., June 18th, 2019.

Tutorials proposals should be submitted via a specific template and according to the instructions available at the website. Proposers should provide information on the Title, Duration, Motivation and Background, Structure, and associated Bibliography. Additional information on previous editions can also be provided, if applicable.

Key dates: 2019 Feb. 08 - Tutorials proposals submission deadline
2019 Mar. 22 - Notification of acceptance
2019 May 10 - Tutorial presentations submission
