EUCNC & 6G Summit 2022 is the 31st edition of a successful series of a conference in the field of telecommunications, sponsored by the European Commission. The conference focuses on various aspects of 5G and 6G communications systems and networks, including cloud and virtualisation solutions, management technologies, hardware components and microelectronic technologies, and vertical application areas. It targets to bring together researchers from all over the world to present the latest research results, and it is one of the main venues for demonstrating the results of research projects, especially from successive European RDI programmes.

Extended Abstracts for Poster Sessions are invited in all Tracks (a full list of topics is available at the website):

- PHY - Physical Layer and Fundamentals
- RAS – Radio Access and Softwarisation
- NET – Network Softwarisation
- WOS – Wireless, Optical and Satellite Networks
- VAP – Vertical Applications and Internet of Things
- OPE – Operational & Experimental Insights
- 6ET – 6G Enabling Technologies
- 6GV – 6G Visions

Extended Abstracts for Poster Sessions are intended for the presentation of initial results worthwhile showing to the community.

Extended Abstracts for Poster Sessions should be submitted according to the following:

- they should follow the regular paper template;
- they should be 2 pages long;
