The 2025 European Conference on Networks and Communications & 6G Summit builds on putting together two successful conferences: EuCNC, in its 34<sup>th</sup> edition of a series, supported by the European Commission; the 6G Summit, in its 7<sup>th</sup> edition, originated from the 6G Flagship programme in Finland, one of the very first in its area. The conference is sponsored by the IEEE Communications Society (ComSoc), the European Association for Signal Processing (EURASIP) and the European Association on Antennas and Propagation (EurAAP). The conference addresses various aspects of Beyond 5G/6G communications systems and networks. It brings together cutting-edge research and world-renown industries and businesses, globally attracting in the last years close to 1 000 delegates from more than 40 countries all over the world, to present and discuss the latest results, and an exhibition with more than 50 exhibitors, for demonstrating the technology developed in the area, namely within research projects from EU programmes.

Workshop proposals are invited in all Tracks:

- PHY - Physical Layer and Fundamentals
- WOS - Wireless, Optical and Satellite Networks
- NET - Network Softwareisation
- AIU - Applications, IoT, Use cases
- OPE - Operational & Experimental Insights
- AI4C - AI/ML Solutions for Communications
- SAQ - Security Aspects and Quantum Communications
- CMP - Components, Microelectronics & Photonics
- NVS - Next-Generation Visions & Sustainability

Workshops may address one or more Tracks, but they should be organised under a unified theme. Workshops are intended to allow projects or any other group of authors to present their own work. Workshops may include invited speakers, papers and panels. The structure of workshops is not fixed, and proposers may design it as they think best. Proposers are responsible for defining the full contents of the Workshop, namely authors and presenters. It is not expected that open calls for papers are launched for Workshops, in order to attract authors or presenters.

Workshop papers can be either Presentations, Extended Abstracts (2 pages) or Full Papers (5 pages) and should be reviewed by the Workshop Technical Programme Committee. These papers will be part of the Conference Proceedings (if the authors wish to do so), but they will not be submitted to IEEE Xplore.

Workshops will extend for half-day (2 time slots of 1h30 each), and they will be held on the first day of the conference, i.e., June 3<sup>rd</sup>, 2025.

Workshop proposals should be submitted via a specific template, according to the instructions available at the website. Proposers should provide information on the Title, Motivation and Background, Structure, and associated Technical Programme Committee. Additional information on previous editions or promotion plans can also be provided, if applicable.

Workshops will be evaluated according to the following criteria:

- Relevance
- Timeliness
- Technical content
- Novelty
- Overall Recommendation

All participants and speakers in Workshops, regardless of the nature of their presentation, including organisers, must pay the registration fee.

### Key dates:

**24 Jan. 2025** - Workshop proposals submission deadline

**07 Mar. 2025** - Notification of acceptance

**11 Apr. 2025** - Final workshop paper submission
