The 2025 European Conference on Networks and Communications & 6G Summit builds on putting together two successful conferences: EuCNC, in its 34th edition of a series, supported by the European Commission; the 6G Summit, in its 7th edition, originated from the 6G Flagship programme in Finland, one of the very first in its area. The conference is sponsored by the IEEE Communications Society (ComSoc), the European Association for Signal Processing (EURASIP) and the European Association on Antennas and Propagation (EurAAP). The conference addresses various aspects of Beyond 5G/6G communications systems and networks. It brings together cutting-edge research and world-renown industries and businesses, globally attracting in the last years close to 1 000 delegates from more than 40 countries all over the world, to present and discuss the latest results, and an exhibition with more than 50 exhibitors, for demonstrating the technology developed in the area, namely within research projects from EU programmes.

The conference will host Exhibitions and Demos, Universities Demos, and SMEs Demos, for the entire main conference days, in the main hall where coffee and lunch breaks will be held, where, at least during the breaks, exhibitors will have the opportunity to interact with attendees.

In order to increase the visibility of all exhibitions and demos, exhibitors are given the opportunity to apply for a Pitch at the Speakers Corner, with a targeted duration of 5 minutes, to be held during breaks, therefore, having one more means to reach the audience. The Speakers Corner will have a screen, microphone and an elevated stage, so that speakers can share their views with the audience.

Exhibitors (from Exhibitions and Demos, Universities Demos, and SMEs Demos) can apply for a Pitch via a specific template and according to the instructions available on the website.
