The 2026 EuCNC & 6G Summit builds on two successful conferences in the area of telecommunications: EuCNC, in its 35th edition, supported by the European Commission, and the 6G Summit, in its 8th edition, originated from the 6G Flagship programme in Finland, one of the very first in its area. The conference is sponsored by the IEEE Communications Society (ComSoc), the European Association for Signal Processing (EURASIP) and the European Association on Antennas and Propagation (EurAAP), and is supported by the European Commission. The conference addresses various aspects of Beyond 5G/6G communication systems and networks. It brings together cutting-edge research and world-renown industries and businesses, attracting in the last years close to 1000 delegates from more than 40 countries to present and discuss the latest results, and more than 70 exhibitors to demonstrate the technology developed in the area, with focus on research projects from EU R&I programmes.

Poster Booth proposals are invited in all Tracks:

- PHY - Physical Layer and Fundamentals
- WOS - Wireless, Optical and Satellite Networks
- NET - Network Softwarisation
- AIU - Applications, IoT, Use cases
- OPE - Operational & Experimental Insights
- AI4C - AI/ML Solutions for Communications
- SAQ - Security Aspects and Quantum Communications
- CMP - Components, Microelectronics & Photonics
- NVS - Next-Generation Visions & Sustainability

Poster Booths may address one or more Tracks, but they should be organised under a unified theme. Poster Booths are expected to show posters addressing novel technologies and their application. Poster Booths will enable projects, research teams and other researchers to show their early stage work.

Poster Booths will be in dedicated poster walls located in the main hall where coffee and lunch breaks will be held, and are supposed to have at least one person present, at least during breaks, in order to present the posters to attendees.

Poster Booths will extend for the entire main conference days.

Poster Booths proposals should be submitted via a specific template and according to the instructions available on the website. Proposers should provide information on the Title, Objective, Motivation and Background, and Description.

Poster Booths proposals will be evaluated according to the following criteria:

- Relevance
- Timeliness
- Technical content
- Novelty
- Overall Recommendation

A Best Poster Booths Award will be issued.

Conference registration is not included in the fee paid for the booth, and the presenter is required to register with either *R-1-F - Full* or *R-2-L - Limited* registration levels, each Poster Booth being required to be associated to one registration (which cannot cover more than one of these booths).

Key dates:

27 Mar. 2026 – Poster booth proposals submission deadline

13 Apr. 2026 – Notification of acceptance
